CO-OP4CBD motivation

Mission

Strengthen the science-policy interface to support the effective engagement with CBD processes within Europe.

Goal

Enhance coordination within the EU in advancing the implementation of the CBD by harnessing effectively the knowledge of EU experts.

CO-OP4CBD objectives

Develop and implement an effective approach to **engage the best available experts** to support the EU, Member States and associated countries with positions, briefings and evidence to support their negotiators in the CBD processes.

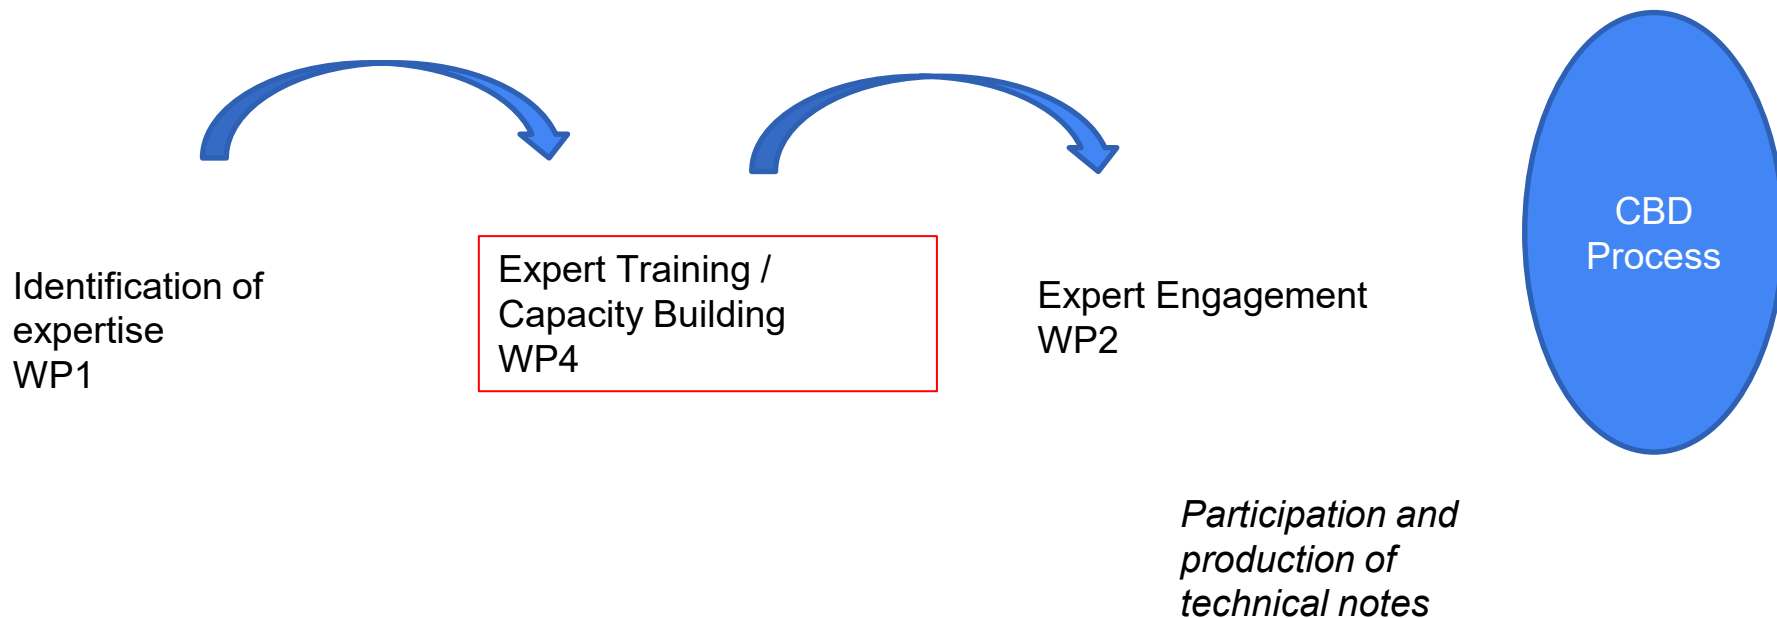

Improve the access to European expertise through enhanced mechanisms for technical and scientific cooperation, and through targeted capacity-building.

Contribute to the development of an effective monitoring and review process for the implementation of the Kunming-Montreal biodiversity package by the CBD Parties.
